Chassis consoles

Wide assortment and new opportunities

Chassis consoles

Bevola have the intention to create a whole business with focus on competitive pricing, high quality and greatest flexibility. It is the desire, to help our customers to get the most efficient value chain - the shortest distance from producer to the final solution and thereby achieve the highest efficiency and the greatest savings. It is common sense and a better bottom line for everyone.

Wide assortment and new opportunities

Bevola has a wide range of chassis consoles for different types of trucks. Bevolas assortment is a mix of standard and custom consoles. Bevolas consoles are available in different versions: raw, painted or galvanized, to either welding or screwing.

Bevola has an ongoing development of consoles and we make special-purposed consoles for several of our customers, who wants their own solutions. Bevola take care of the entire process of drawing, calculating, approvals, and not least, the production. Bevola can handle both large and small order quantities for competitive prices, and we also have a large stock of consoles for immediate delivery.

For further information about products and new opportunities, please contact Bevola.

Environment

Chassis consoles is a steel product, which is 100% recyclable. By surface treatment, we are constantly trying to choose the most environmentally friendly treatments on the market. With focus on the environment, we plan our production, so that our movements are performed efficiently in order to ensure minimal CO2 emissions.
